

Applicant: Chen et al.
Application No.: 10/619,064

IN THE DRAWINGS

The attached new sheet of drawings includes Figure 7. New Figure 7 has been added in response to the Examiner's Drawing objection to show the positioning of the LCD display control board 3, insulated sleeve 4 and metal foil 5 within the computer.

REMARKS

Claims 1-6 are currently pending in this application. Claims 1-6 have been stated to be allowable if rewritten to overcome the claim objections identified in the January 12, 2006 Office Action. By way of this Reply, claims 1 and 4 have been amended to address the Examiner's claim objections. Claims 1-6 have also been amended to recite the claimed subject matter more clearly. In addition, paragraphs [0004] – [0006] of the Specification have been amended and Figure 7 has been in order to address the Examiner's objections to the specification and drawings. Applicants submit that no new matter has been introduced into this application by these amendments.

Objections to the Drawings

The Examiner objected to the drawings because stating that they "fail to show where in a portable computer an LCD display control board 3, an insulated sleeve 4, and a metal foil 5 are located. The Examiner is thanked for discussing the foregoing objection to the drawings with the undersigned on February 6, 2006. During the interview, the Examiner agreed that a new drawing showing the bottom housing of the computer in an exploded view and the positioning of the LCD display control board 3, insulated sleeve 4, and metal foil 5 within the computer would overcome this objection to the drawings.

Accordingly, Applicants have enclosed new Figure 7 in accordance with the Examiner's remarks. Applicants submit that no new matter has been introduced into the application by entry of new Figure 5 in this application. Withdrawal of the objection to the drawings is respectfully requested.

Objections to the Specification

The Examiner objected to the specification because due to grammatical and typographical errors in paragraphs [0004]-[0006]. The specification has been amended in accordance with the Examiner's remarks and is believed to overcome these objections. Accordingly, withdrawal of the objections to the specification is respectfully requested.

Claim Objections

The Examiner has objected to claims 1 and 4 stating that the phrase "sleeve for collecting static to conduct to ground" is not clearly stated. Claim 1 has also been objected to due to a grammatical error. By way of the foregoing amendment, claims 1 and 4 have been amended in accordance with the Examiner's remarks and are believed to overcome these objections. Accordingly, withdrawal of the objections to claims 1 and 4 is respectfully requested.

Conclusion

If the Examiner believes that any additional minor formal matters need to be addressed in order to place this application in condition for allowance, or that a

Application No.: 10/619,064

telephone interview will help to materially advance the prosecution of this application, the Examiner is invited to contact the undersigned by telephone at the Examiner's convenience.

In view of the foregoing remarks, Applicants respectfully submit that the present application, including claims 1 - 6, is in condition for allowance and a notice to that effect is respectfully requested.

Respectfully submitted,

Chen et al.
